Connellsville Business Opportunities
As of March 2015

The Trail Town Program® aims to identify trail user needs and help fill service gaps in trail communities by providing market information, technical assistance, and financing to existing and potential businesses. This document identifies existing conditions related to trail services and what we see as opportunities. Those considering either an expansion or a new business should conduct their own market research and complete a business plan.

Existing Trail-Serving Businesses

Potential Opportunities

Lodging
- With a hotel planned for this year, lodging accommodations will be well covered, but another lodging opportunity exists in the form of hostels or guest houses as a low cost or larger group option.

Food and Drink
- Trail users would likely frequent an informal café, and preferably with outdoor seating. Fresh and healthy menu items that include vegetarian options, packed lunches for trail-side consumption, and locally grown and raised food items would be of particular interest.
- The farm-to-table movement provides tremendous potential. Other informal but specialized food opportunities might be a gourmet burger, hot dog, or ice cream shop, or even a bike-themed or trail-oriented café.
- A brewpub, wine bar, or simply an amiable bar & restaurant that serves craft beers and imports would likely be frequented by trail users.
- Many restaurants are closed during the evening, weekends, or have limited hours. There is an opportunity to adjust hours to accommodate visitor traffic or be open when many other restaurants are closed.

Retail
- Unique retail, such as specialty, artisan, or gift shops, could appeal to both trail users and locals alike.
- Many retail locations are closed or have limited hours during the weekends and evenings. There is an opportunity to adjust hours to accommodate visitor traffic or be open when many other shops are closed.

Other Amenities
- In the region there is a need for shuttle service for people, bike, luggage, and equipment
