Correction to 2011 Trail User Survey October 1, 2012

After the 2011-12 Economic Impact Studies were released, a correction was needed regarding overnight accommodations and lodging.

After reviewing the analyzed results and original survey responses a more accurate depiction of overnight accommodations was determined. The following are a result of those who answered yes to overnight accommodations.

- The majority of respondents (59.2%) frequented an indoor facility with most choosing a bed and breakfast followed by a hotel/motel.
- Approximately 26.1% camped during their visit to the Great Allegheny Passage.
- 7.3% of trail users choose a mixture between indoor lodging and camping during their visit to the Great Allegheny Passage.
- 6.2% choose to stay with friends/family or personal vacation home along the trail.
